## INTRODUZIONE

Dall'anno 1960 l'Istituto Centrale di Statistica conduce la rilevazione del traffico aereo commerciale in collaborazione con il Ministero dei Trasporti. La rilevazione ha per oggetto il movimento degli aeromobili civili negli aeroporti nazionali (arrivi e partenze) e il relativo traffico aeroportuale di passeggeri, posta e merci.

Vengono rilevati sia i servizi regolari (o di linea) che gli irregolari (o charters).

Fino al 1980 la rilevazione veniva eseguita dai Nuclei Statistici delle Direzioni civili degli aeroporti, i quali provvedevano a compilare, per ogni arrivo e per ogni partenza degli aeromobili, la relativa dichiarazione statistica (Mod. ISTAT/I/541-542) sulla base della dichiarazione generale fornita dagli esercenti e del manifesto delle merci.

Dal 1981 la metodologia di rilevazione è stata semplificata. La dichiarazione statistica è stata sostituita con la Dichiarazione Unica del Vettore che gli Uffici Traffico delle Direzioni civili degli aeroporti ricevono direttamente dai vettori aerei. Questi uffici, dopo aver effettuato i necessari controlli, inviano ogni fine mese la Dichiarazione all'Istituto Centrale di Statistica.

Le principali notizie rilevate con la dichiarazione unica del vettore sono:

— l'aeroporto sul quale avviene il movimento;

- la Società che gestisce il servizio (il che consente di determinare la bandiera dell'aereo);
- il tipo e il modello dell'aereo;
- la qualifica del volo (voli di linea regolari e non di linea o irregolari o charters, voli nazionali e internazionali, ecc.);
- i dati relativi al carico, distinti per aeroporto di provenienza e di destinazione, ossia il numero dei passeggeri, il peso della posta pagante e il peso delle merci paganti (compresi i giornali).

Dopo un'accurata revisione dei modelli, i dati raccolti vengono elaborati dall'Istituto Centrale di Statistica.

Dati sintetici provvisori vengono pubblicati sul Bollettino mensile di statistica e sul Notiziario ISTAT (Foglio 26). I dati sintetici definitivi vengono pubblicati sull'Annuario Statistico Italiano e sul Compendio Statistico Italiano.

Nella presente pubblicazione vengono riportati nella prima parte i dati analitici e definitivi relativi all'anno 1981, nella seconda e terza parte alcuni dati provvisori relativi agli anni 1982 e 1983, e nella quarta parte dati sintetici retrospettivi.
